

SEDIMENT.

JOB DESCRIPTION

COMPANY

+ Sediment Design
1213 York St. Suite B
Cincinnati, OH 45214

POSITION

+ Fabricator
Full-Time

SUMMARY:

Sediment Design is looking for an experienced fabricator to join our growing team. The fabricator will have hands-on involvement in all phases of production including aiding in the creation of construction documents, sourcing, project management, fabrication and installation. The ideal candidate is highly motivated, experienced in commercial build-outs, detail oriented, thrives in a fast-paced, small-team environment and upholds strict quality standards.

RESPONSIBILITIES:

- Production of hardwood furniture from rough sawn lumber.
- Production of plywood case goods, cabinetry and millwork.
- Creation of jigs and fixtures to aid in accurate and repeatable processes.
- Installation of built objects in a variety of commercial and residential spaces.
- Read, interpret and fabricate from construction drawings.
- Generate cut lists and plan for efficient material layout.
- Strategize cost-effective solutions.
- Manage multiple projects at once.
- Participate in site visits and field assessments.
- Keep up with daily cleanliness, machine maintenance, and shop organization.
- Maintain a pace of work that aligns with daily milestones and project deadlines.
- Use of vehicle to acquire material, hardware and job supplies.

REQUIREMENTS:

- 3+ years of experience in related field.
- Proficient in techniques, skills and processes related to high-end fabrication.
- Well versed in the safe use of hand tools and woodworking machinery.
- Knowledge of modern and traditional joinery.
- High attention to detail and consistent work ethic.
- Able to work independently as well as with a team.
- Excellent communication skills, organized and punctual.
- Capable of lifting 50+ lbs regularly.
- Experience spraying/applying finish.
